Dear Sirs

Copyright Infringement Notice

We act for the NSW Minerals Council (**NSWMC**).

Our client has concerns in relation to three websites:

www.miningnsw.com.au;

www.nswmining.com;

www.miningnsw.com

Our client is concerned that content and design layout of the websites amounts to an infringement of copyright of our client.

1 Your company's hosting of this website

The Ausregistry website shows that the website (www.miningnsw.com.au) is hosted by the following two name servers: ns1.axxs.org and ns2.axxs.org. Please confirm this, and please also confirm that you host the websites www.miningnsw.com and www.nswmining.com.

2 Website content

Content in which our client owns copyright may be viewed on its website, www.nswmining.com.au. We ask that you compare our client's website to the offending websites referred to above. On comparison, you will see the copyright infringement issues that our client has with the abovementioned websites.

3 Notice under the Copyright Regulations 1969

Attached to this letter is a Notice of our client's claimed infringement, as prescribed under section 20I of the Copyright Regulations 1969 (**the Regulations**).

We draw your attention to the "Takedown procedure" required under s.20J of the Regulations and in particular to your specific requirement that, upon receipt of a Notice under regulation 20I, the "carriage service provider **must expeditiously** remove, or disable access to, the copyright material specified in the notice and residing on its system or network" (emphasis added).

Our client therefore seeks your confirmation in writing within 24 hours that your company has complied with the Regulations and in particular s.20J and the "Takedown procedures". For the avoidance of doubt, our client requests that you will expeditiously,
