Subject: DOC Building Explosion

Governor-

About 15 minutes ago, a Department of Corrections warehouse exploded in the Fox Lake area. Everyone is accounted for during the initial count – they are reconfirming that everyone is accounted for.

Police and the Utility Company had already been on site as they had been alerted to a potential gas leak.

Secretary Hamblin is assessing the situation and impact on Corrections Facilities as we speak and will keep me updated as it warrants.

We can expect disruption to food supplies to regional prisons – Secretary will brief us once that impact is known.

Keith Gilkes
